

# Using federal funds to address unfinished learning

## How NWEA can help

The MAP® Suite and NWEA Professional Learning offer the right tools to help educators both during the school year and over the summer. Our team is ready to help you evaluate how the MAP Suite supports your instructional and operational plans, from addressing unfinished learning to working towards proficiency and achievement goals. We want to ensure accurate data for every student—regardless of where and when learning is happening—so that educators can target instruction and improve outcomes for all kids.

## map GROWTH

MAP® Growth™ is the most trusted and innovative assessment for measuring learning and growth in K-12 math, reading, language usage, and science. By connecting with more than 25 instructional resources, MAP Growth ensures teachers have the flexibility they need for curriculum planning.

## map Reading Fluency

MAP® Reading Fluency™ is an online, adaptive benchmark, universal screening, and progress monitoring assessment that efficiently measures oral reading fluency, literal comprehension, and foundational skills. It uses advanced technology to enable group testing, automatically record and score each student, and deliver instructionally useful data.

## map Accelerator

powered by  Khan Academy

Developed jointly with Khan Academy™, this innovative online tool simplifies math differentiation for grades 3-8. MAP® Accelerator™ uses MAP Growth math scores to automatically generate personalized learning pathways of standards-aligned Khan Academy content.

## nwea Professional Learning

Our professional learning consultants know how to move leaders and teachers towards new skills and practices and get students back on track towards needed results. We focus on combining differentiation and grade-level proficiency to address the diversity of unfinished learning caused by lost instructional time.

## nwea School Improvement

Through a research-driven, holistic approach, we partner with you to deliver a school improvement plan that empowers school leaders as the central agents of change. The result? Supportive school environments, enhanced instructional quality, and improved student outcomes.
